

12. Urban Deprived Children Hostel

Feelings make us vibrant. If we try to rid of them or hide them or try living without expression dead. – Boring and indifferent with no passion for anything.

Poverty is hunger, poverty is losing a child to illness brought about unclean water, poverty is being sick without access medical treatment. Poverty is not being able to go to school and not knowing to read. Poverty is being without support of family. Poverty is living from day to day fear in future. Poverty is powerless limited choice and lack of representation. Children in poor family have dreams for the future that are often jeopardized by the day to meet basic needs. Poverty is the root cause of why many end up in institution where they are exploited.

12.1 Back ground of URH program.

SASSS was recognized as one of the best organization in the services of the poor and needy and the Govt. itself came forward to offer UDRH program in the year 2012. It was started on July 19th 2012 at chowdavaram, Guntur. We are running successfully till today without demanding rent and transport expenses.
